Smart Lock Linus® L2: the latest evolution of the smart lock for your door

Keyless access, shared and easily monitored via the app.

With the Yale Smart Lock Linus® L2, your door will automatically unlock as you approach, and you can set it to lock automatically at a specific time, on a timer, or instantly using the DoorSense feature. The Yale Home app allows you to manage access for trusted visitors with digital keys and/or codes and monitor the status of the door from anywhere.

Elegant design that complements any home and a wide range of doors.

Easier to install and use, faster, quieter, and more powerful than the first generation of Linus®. With its modern, compact design, it ensures safety and practicality, thanks to its long-lasting rechargeable battery.

Smart Lock Linus® L2

New access options to fit your lifestyle.

Install the Yale Dot® on the outside of your door and unlock it with a simple tap. With the Smart Fingerprint Keypad 2, you and your loved ones can quickly and securely activate the lock using your fingerprint and a personal access code, then lock the door with a single touch when you leave.

Advanced connectivity for even smarter home security.

Smart Lock Linus® L2 offers numerous connectivity options, including built-in Wi-Fi and Bluetooth. With its interoperability, you can effortlessly control the entire Yale smart security ecosystem through the Yale Home app. It also integrates with leading voice assistants, Airbnb, Samsung, SmartThings, and Philips Hue, among others. Smart connectivity should be simple and dependable. With Matter, your devices work seamlessly together on a secure, unified platform, removing any concerns about compatibility.
